

The University of Technology, Jamaica
School of Computing and Information Technology
Web Programming (CIT2011) 2019/2020 – Semester 2
Individual Assignment #1

Due: Week of February 12, 2020

Description

You are required to build a simple website that promotes the following topic:
"Caribbean Sports Ambassadors"

Requirements:

Your website will identify four (4) different countries in the Caribbean and will highlight and illustrate from each country for the last five Olympics: For each country you should highlight:

- i) Introduction
- ii) brief history of that sport
- iii) The sporting area that each country participated in each Olympic for the past 30 years
- iv) The country's best performance &/or worst performance
- v) At least one individual/team who has excelled exceptionally well(and not in competition now)
Your page should highlight their rise to fame, their achievements and where they are now
- vi) an individual who is currently excelling in a sporting area.
- vii) Individuals to watch (upcoming junior athletes) and your prediction as to their success
- viii) Country's expected performance at this year's Olympics

Your research may span across any sporting genres such as football, track and field, cricket, netball etc offered at the Olympics. Please do not limit your study to the English speaking Caribbean. Be sure to include at least **ONE (1)** French, Dutch or Spanish Caribbean country as well. You can use Search Engines and/or Libraries to gather your data and images for your website.

Constraints:

1. **Three (3)** weeks to complete your website

Constraints:

2. At least **eight (8)** WebPages must be used to make up the website:
 - a) **Front/Splash Page:** The webpage that introduces the user to your website
 - b) **4 x Area Pages:** one webpage for each identified area
 - c) **Future Transformation:** Opportunities and challenges for the future?
 - d) **About Me Page:** A detailed webpage about the creator of the website and ways to contact them (email and picture must be included)
 - e) **References Page:** A page that includes all the bibliographic sources of information i.e. books, websites etc in APA format.

3. Most of the Standard HTML tags "**must**" be used in your production.
4. Designs in the form of a storyboard and/or box layout "**must**" be provided. You may provide a hyperlink to the storyboard used.
5. **Common Theme:** All WebPages must look and feel the same.
6. This assignment is based on HTML and you are expected code from scratch. Therefore use of WYSIWYG tools such as Dreamweaver, Word, FrontPage, IDE etc is strictly **prohibited**.
7. This is **NOT** a CSS assignment. Please stick to the standard HTML tags. The use of the **<style>**, **<div>**, **<section>**, **<footer>** etc. tag is therefore not recommended

Marks Are Awarded for:

- | | |
|---|-------|
| 1. Completeness of the website (working hyperlinks, seeing images, strong tags) | - 25% |
| 2. Content | - 25% |
| 3. Use and style of HTML5 tags | - 15% |
| 4. Presentation and Feel of the finished product | - 15% |
| 5. Storyboard design and site map of the website and its WebPages. | - 15% |

Submission

- a) Your website must be published online. There are several free web hosting sites available. **(5%)**.
- b) Folder that contains all content including HTML code, images, etc.
- c) Uploaded to UTech Online (or to be determined by tutor)

NB

- Please create your folder and filenames using the following format:
ID#_WP_IA1_Sem2_19_20.
- Please ensure that source code must be document with your **Name, ID#, Date, name of assignment, semester, and academic year.**
